

CURRICULUM VITAE

Name: Ali Reza Moattari

Work Address: 1441 Avocado Ave. Suite 807
Newport Beach, CA 92660
Telephone: (949) 706-7706
Fax: (949) 706-7707

Academic Positions:

Irvine Dec.2007- Present Clinical Professor of Medicine/Endocrinology. UC
2004 – Sep.2007 Professor of Medicine, Northeastern Ohio
Universities College of Medicine
1994 – Sep.2007 Head, Division of Endocrinology & Metabolism,
Northeastern Ohio Universities College of
Medicine
1993 - 2004 Associate Professor of Medicine, Northeastern
Ohio Universities College of Medicine
1989 - 1993 Assistant Professor of Medicine, Northeastern
Ohio Universities College of Medicine

Professional Positions:

Jan. 2008- Present private practice
1989 – Sep.2007 Chief, Division of Endocrinology & Metabolism
at Akron General Medical Center
1988 - 1989 Endocrinologist, Akron General Medical Center

Curriculum Vitae
Ali Reza Moattari, M.D.
Page 2

**Post Graduate Experience
and Training:**

1985 - 1988	Fellowship in Endocrinology & Metabolism at University of Michigan Hospital, Ann Arbor, MI, Preceptor Aaron Vinik, M.D., Ph.,D.
1982 - 1985	PGY-1, PGY-2 and PGY-3 in Internal Medicine at Youngstown Hospital Association (affiliated with Northeastern Ohio Universities College of Medicine), Youngstown, OH

Medical Education:

1971 - 1979	Shiraz University School of Medicine (formerly Pahlavi University)
-------------	--

Degrees and Certificates:

M.D. Degree, honored graduate with total G.P.A. of 3.83 from Shiraz University School of Medicine, July 1979

Curriculum Vitae
Ali Reza Moattari, M.D.
Page 3

Specialty Certification:

American Board of Internal Medicine, Sept. 1985, #103151
American Board of Endocrinology & Metabolism, Nov. 1987, #103151

Professional Licensure:

Active: Ohio, California
Inactive: Michigan, Pennsylvania

Teaching Responsibilities:

In charge of teaching of the House officers (Internal Medicine Family Practice, Psychiatry, visiting residents) and Medical Students during Endocrine rotation

Endocrine rotation includes:

- Patients and bedside rounds
- Didactic teaching
- Out-patient & In-patient Endocrine Consult
- Out-patient & In-patient Endocrine Follow-up
- Dynamic Endocrine Tests

Formal endocrine and diabetes lectures to residents in month of November

Formal teaching to second year Medical students during their Endocrine month

Formal teaching to third year Medical students during their surgical and medical clerkship

Curriculum Vitae

Ali Reza Moattari, M.D.

Page 4

Honors and Awards:

Honored graduate from high school, 1971

Honored graduate from medical school, 1979

Resident of the Year award, by medical interns, Youngstown Hospital Association, 1985

Rookie of the Year award for excellence in teaching by Akron General Medical Center, Department of Medicine Resident Staff, 1989

Teacher of the Year award for excellence in teaching by Akron General Medical Center, Department of Medicine Resident Staff, 1991

Excellence In Teaching award from Internal Medicine Residency Program at Akron General Medical Center, 1996

Preceptor ship Award by The American College of Physicians, December 1997

Honor Certificate for ten years teaching as Associate Professor of Medicine at Northeastern Ohio Universities College of Medicine, 2004

Certificate of Appreciation for teaching of undergraduate medical student and post graduate medical resident at Northeastern Ohio Universities College of Medicine, 2004

Outstanding Volunteer Faculty Award at Northeastern Ohio Universities College of Medicine, 2007

Memberships:

Fellow American College of Physicians

Fellow American College of Endocrinology

Endocrine Society

American Association of Clinical Endocrinologist

American Diabetes Association

Curriculum Vitae

Ali Reza Moattari, M.D.

23. Daniela Ciltea, A. Reza Moattari. A case of pheochromocytoma presenting as “idiopathic cardiomyopathy”. American College of Physicians, Ohio Chapter, Columbus, October 2004
24. Daniela Ciltea, A. Reza Moattari. A case of pheochromocytoma presenting as “idiopathic cardiomyopathy”. Annual meeting of American Association of Clinical Endocrinologists, Washington D.C., May 2005
25. Monica Cating, Mark Horattas, A. Reza Moattari. An intrathyroidal bronchial cyst in Hashimoto’s, thyroiditis, a case report. Endocrine Society Meeting, June 2006, Boston, MA.

PRESENTATIONS AND LECTURES

1. Short-term caloric restrictions in obese non-insulin dependent diabetics. Divisional Conference, University of Michigan Hospital, March 1986
2. Thyroiditis. Divisional Conference, University of Michigan Hospital, July 1986
3. Clinical use of somatostatin in gastrinoma syndrome. Divisional Conference, University of Michigan Hospital, September 1986
4. Ectopic hormone syndromes. Divisional Conference, University of Michigan Hospital, July 1987
5. Insulinoma. Grand Rounds at Western Reserve Hospital, Youngstown, Ohio, August 1987
6. Somatostatin analogue in carcinoid syndrome. Divisional Conference, University of Michigan Hospital, October 1987
7. Lipoprotein metabolism and disorders. Divisional Conference, University of Michigan Hospital, April 1988
8. The role of trans-hepatic portal venous sampling in localization of gastrinomas. Divisional Conference, University of Michigan Hospital, May 1988
9. Hypocalcemia and hypoglycemia. Akron General Medical Center, November 1988
10. Metabolic bone diseases. Akron General Medical Center, November 1988
11. Pheochromocytoma and MEN syndromes. Akron General Medical Center
12. Pituitary disorders. Akron General Medical Center, November 1988
13. Endocrine testing. Akron General Medical Center, November 1989

PRESENTATIONS AND LECTURES
(Cont.)

14. Acutely decompensated diabetes mellitus. Akron General Medical Center
15. Thyroid nodules. Akron General Medical Center , November 1989
16. Thyroiditis. Akron General Medical Center, November 1989
17. Hyperlipidemia. Akron General Medical Center, November 1989
18. Evaluation of thyroid nodule and thyroid carcinoma. Surgical Grand Round, Akron General Medical Center, June 1990
19. Endocrine hypertension. Western Reserve Care System, Youngstown, September 1990
20. Cushing's syndrome. Akron General Medical Center, November 1990
21. Hypothyroidism. Akron General Medical Center, November 1990
22. Endocrine diarrhea. Akron General Medical Center, November 1990
23. Aldosteronism. Akron General Medical Center, November 1990
24. Pheochromocytoma. Akron General Medical Center, November 1990
25. Thyroid nodules and carcinoma. Western Reserve Care System, Youngstown, November 1990
26. Hyperlipidemia - how aggressive should we be in treatment? Lodi General Hospital, Lodi, February 1991
27. Cushing's syndrome. Western Reserve Care System, Youngstown, February 1991

PRESENTATIONS AND LECTURES
(Cont.)

28. Paget's disease of bone. Western Reserve Care System, Youngstown, April 1991
29. Adrenal disorders. Northeastern Ohio Universities College of Medicine, Rootstown, May 1991
30. Paraneoplastic endocrine syndrome. Western Reserve Care System, Youngstown, June 1991
31. Management of hyperlipidemia. Barberton Hospital Family Practice Center, July 1991
32. Medical management of pregnant diabetic women. September 1991
33. Endocrine emergencies. Akron General Medical Center, July 1991
34. Prolactinoma. Akron General Medical Center, November 1991
35. Subacute thyroiditis. Akron General Medical Center, November 1991
36. Thyroid nodule. Akron General Medical Center, November 1991
37. Ectopic hormone syndrome. Akron General Medical Center, November 1991
38. Evaluation and treatment of patients with hypocalcemia. Akron General Medical Center, November 1991
39. Evaluation and treatment of patients with hypoglycemia. Akron General Medical Center, November 1991
40. Hypercalcemia of malignancy. Akron General Medical Center, November 1991

PRESENTATIONS AND LECTURES
(Cont.)

41. Classification of lipid disorders. Akron General Medical Center, November 1991
42. Treatment of hyperlipidemia. Akron General Medical Center, November 1991
43. Menopause - estrogen replacement therapy. Akron General Medical Center, November 1991
44. Osteoporosis. Akron General Medical Center, November 1991
45. Pituitary tumors. Grand Round, Western Reserve Care System, Youngstown, February 1992
46. Osteoporosis and postmenopausal estrogen therapy. Grand Round, Barberton Citizen's Hospital, March 1992
47. Evaluation of thyroid nodule and overview of thyroid neoplasm. Surgical Grand Round, Akron General Medical Center, May 1992
48. Diabetic emergencies. Akron General Medical Center, July 1992
49. Pituitary tumor and hypopituitarism. Akron General Medical Center, November 1992
50. Hypocalcemia. Akron General Medical Center, November 1992
51. Hyperparathyroidism. Akron General Medical Center, November 1992
52. Thyroid cancer. Akron General Medical Center, November 1992
53. Paget's disease of the bone. Akron General Medical Center, November 1992

PRESENTATIONS AND LECTURES
(Cont.)

54. Addison's disease. Akron General Medical Center, November 1992
55. Mineralocorticoid deficiency. Akron General Medical Center, November 1992
56. IDDM. Akron General Medical Center, November 1992
57. NIDDM. Akron General Medical Center, November 1992
58. Thyroid function tests - use and misuse. 3rd Annual Update in Internal Medicine, Northeastern Ohio Universities College of Medicine, May 1993
59. DKA, hyperosmolar hyperglycemia. Akron General Medical Center, July 1993
60. Pituitary disorders. Akron General Medical Center, November 1993
61. Evaluation of patients with thyroid disease. Akron General Medical Center, November 1993
62. Hyperparathyroidism. Akron General Medical Center, November 1993
63. Hypocalcemia. Akron General Medical Center, November 1993
64. Paget's disease of the bone. Akron General Medical Center, November 1993
65. Menopause. Akron General Medical Center, November 1993
66. IDDM. Akron General Medical Center, November 1993
67. Tight control of blood glucose in diabetic patients. Akron General Medical Center, November 1993

PRESENTATIONS AND LECTURES
(Cont.)

68. Gestational diabetes. Akron General Medical Center, November 1993
69. Hyperlipidemia - the new NCEP guidelines. Akron General Medical Center, November 1993
70. Diabetic emergencies. Cuyahoga Falls General Hospital, February 1994
71. Diabetes and pregnancy. Akron General Medical Center, March 1994
72. Hypothyroidism. Barberton Citizen's Hospital, March 1994
73. Diabetes insipidus. Akron General Medical Center, March 1994
74. Hypercalcemia. Akron General Medical Center, November 1994
75. Cushing's syndrome. Akron General Medical Center, November 1994
76. Male hypogonadism. Akron General Medical Center, November 1994
77. Hypothyroidism. Akron General Medical Center, November 1994
78. IDDM. Akron General Medical Center, November 1994
79. Chronic complications of diabetes. Akron General Medical Center, November 1994
80. Hypothyroidism. Western Reserve Care System, Youngstown, February 1995
81. Treatment of Type 2 diabetes - What's new? 5th Annual Update in Internal Medicine, Northeastern Ohio Universities College of Medicine, May 1995

PRESENTATIONS AND LECTURES
(Cont.)

82. Endocrine emergencies. Akron General Medical Center, July 1995
83. New strategies in treatment of NIDDM. Dunlap Memorial Hospital, August 1995
84. Hypopituitarism. Akron General Medical Center, November 1995
85. Addison's disease. Akron General Medical Center, November 1995
86. Pregnancy and thyroid disease. Akron General Medical Center, November 1995
87. Multiple endocrine neoplasia. Akron General Medical Center, November 1995
88. Hypocalcemia. Akron General Medical Center, November 1995
89. Intensive insulin therapy in Type 1 diabetes. Akron General Medical Center, November 1995
90. Organic impotence. Akron General Medical Center, November 1995
91. New strategies in treatment of Type 2 diabetes. Medical Grand Round Akron General Medical Center, February 1996
92. NIDDM. Akron General Medical Center, November 1996
93. IDDM. Akron General Medical Center, November 1996
94. Hypoaldosteronism. Akron General Medical Center, November 1996
95. Pheochromocytoma. Akron General Medical Center, November 1996

PRESENTATIONS AND LECTURES
(Cont.)

96. Osteoporosis. Akron General Medical Center, November 1996
97. Thyroxine therapy. Akron General Medical Center, November 1996
98. Hyperparathyroidism. Akron General Medical Center, November 1996
99. DKA and hyperosmolar state. Emergency Medicine Grand Round, Akron General Medical Center, April 1997
100. Pregnancy and diabetes. OB/GYN Grand Round, Akron General Medical Center, September 1997
101. New strategies in treatment of Type 2, combination oral therapy. Grand Round at Brunswick VA Hospital, Cleveland, October 1997
102. Diagnosis and classifications of diabetes - new guidelines. Akron General Medical Center, November 1997
103. Diabetic ketoacidosis and hyperosmolar state. Akron General Medical Center, November 1997
104. Hyperaldosteronism. Akron General Medical Center, November 1997
105. Subacute thyroiditis. Akron General Medical Center, November 1997
106. Diabetes insipidus. Akron General Medical Center, November 1997
107. Adrenal insufficiency. Akron General Medical Center, November 1997
108. Thyroid nodule and hyperparathyroidism. Surgical Grand Round, Akron General Medical Center, February 1998

PRESENTATIONS AND LECTURES
(Cont.)

109. Diabetes mellitus - diagnosis, classification and pathogenesis. Akron General Medical Center, November 1998
110. Insulin therapy in diabetic patients. Akron General Medical Center, November 1998
111. Hyperparathyroidism. Akron General Medical Center, November 1998
